ROGERS STUBBY DOG WEARS A CROWN IN THE FOREST
<u>CROWN ZELLERBACH TRAIL</u> Turn-by-Turn Directions

This course is an out and back entirely on the Crown Zellerbach Trail. You'll start from the Ruley parking lot, run out to the 13-mile sign and turn around and come back.

It's most helpful to look at the interactive map on the race website while reviewing these directions. Keep in mind that your watch may show different distances from what we describe below. These should be close, but don't fret if yours doesn't match exactly. GPS signals are not perfect. Print and bring these with you if you are unsure of the route.

- Start line is the Ruley Trailhead sign at the edge of the parking lot (say hi to the cows)

- The CZ trail generally runs east to west. You'll head west to start, going past the covered picnic table and covered old logging equipment.

- You will cross over a few roads. Look for traffic before darting across. Stay on the CZ Trail.

- 4 miles in, watch for the Mile 13 signpost on your left side. That is your turnaround point. You will know if you passed it if you get to the Scappoose Vernonia Highway and the Nehalem Divide trailhead.

- Turn around at the 13-mile sign and enjoy the mostly downhill cruise to the finish line (the same signboard as the start line). Don't forget to stop your watch when you finish.
